Work of County Agriculturist

The work last week was of a some what miscellaneous nature being along line of boys' and girls' clubs, household water systems, and the distribution of seed beans and potatoes. During the week Mr. Roby of the U.S. Department of Agriculture and the Michigan Agri cural College has been directing the installation of a water system and sep-tic tank in the home of Allen and Eugene Atkins on North Street. He also visited several other farms in that vicinity and near St. Clair where assistance regarding household conveniences had been requested. It is encouraging to note that interest in this project is growing rapidly, and it will result in adding to the health and comfort of

the homes of the county.

Another matter of importance was Another matter of importance was the organization of a girls' gardening and canning club in district No. 2 of China township. This is the first girls' club in the county and while the en-rollment is not large, the seven girls who are taking up the work are showing an enthusiasm and interest that is bound to win.

Friday evening a meeting of the Corn Club was attended at the Gleaner hall. Questions in regard to seed corn and other business matters of the Club were considered and assistance was given the boys in carrying on the meeting in accordance with parliamentary rules. The information they are gaining in regard to the proper method of conducting meetings bids fair to constitute an important feature of the club work.
